A Widow's Cash
Ford, the King
No More "Obey"
No, to Athens

By Arthur Brisbane

Copyright, 1925, by Star Company
Mrs. LEATH'S husband left her five million dollars eighteen years ago. In a bankruptcy court she testified that her total assets are reduced to \$400, including a wrist watch worth \$500.
Mrs. Leath kept her money longer than is customary with widows of rich men. Gentlemen who consider it almost a business virtue to rob a woman usually get their money in much less than eighteen years.
If you expect to leave a widow or daughter, leave a certain income so tied up that it cannot be stolen from them. A good trust company or the right insurance policy will help to do that.

OF THE WOMEN made widows by the Spaniards, all but two must work for a living. Ignorant and incompetent men in the Navy Department, ignoring the warnings of Commander Lansdowne, made them widows. The government ought to support those women as long as they live. Some Congressmen should prepare a bill with that idea in mind. Such a bill might make it possible in Congress to wipe the coat of whitewash from the Spaniards' investigation and find what really happened.

POLAND WOULD like Henry Ford for President or King. Henry Ford, however, is like the British farmer whose clergyman told him he was soon going to Heaven. The farmer did not want to go to Heaven; he wanted to stay here and ride his white-faced mare that went "tip top" over the fence.
Henry Ford would rather stay at Dearborn and be king of the great industrial enterprise ever created.

FORD'S WORK in the aircraft is to this nation a blessing of which the importance cannot be exaggerated. It may mean the difference between defeat and victory in the next war, or

more probably it may mean that for America there will not be any next war.

MR. FORD OFFERS to build for the government at a cost of \$200,000 an all-metal dirigible, 150 feet long. It is the size of aircraft that the world needs; can fly 2,000 miles without coming down. It represents common sense and economy.

There is no doubt that President Coolidge will accept Mr. Ford's offer. He was among the very first to praise and encourage Henry Ford's aircraft plans.

THE PROTESTANT EPISCOPAL CHURCH House of Bishops definitely removes "obey" from the marriage ceremony. Many married ladies had already removed it from the routine of daily life, common sense telling them that if marriage is not an equal partnership, it isn't much.

THE OLD IDEA about women is dying out not too soon. British husbands no longer are allowed by law to beat their wives with a stick "no thicker than the thumb." The French unwritten law gave fathers authority over their children, according to Westminster, on the theory that the child was the property of the mother, and the mother was the property of the father.

The Moore, according to the same Westminster (see "Origin and Development of Moral Ideas"), believed that old men became saints and old women witches. Breach of promise cases prove that old men become foolish and old women have to be very patient.

IN NEW YORK CITY a group of foolish young men seek Continued on Page 7, Column 4.

A HOMEY PAPER FOR THE PEOPLE WHO THINK BOSTON, FRIDAY, OCTOBER 23, 1925

FEMININE COURT, WOMAN JUDGE FOR HUB

GRL WILL WED MAN SHE SHOT

Argers in Reconciliation With Miss Correia; She Faces Charges

Taunton, Oct. 23.—The sun is shining once more for Annie Morris Correia, the girl who shot her former suitor, Agrius Argers, because she believed he was about to desert her.

Unlike Olympia Morel, the New Haven "Magazine" who was left to bear her burden alone, Annie is to wed the man of her choice after all. When the couple appeared in court to face serious charges, the girl's face was wreathed in smiles. It was learned that as soon as Argers was discharged from the hospital, he sought her and effected a reconciliation.

Before arraignment today they asked the court for a waiver of the five-day law so that they could be married at once. When this request was refused, the couple declared they would marry as soon as the five days expire.

KELSEY HAS REIGNED MILLIONS

Wife's Faith and Courage Largely Responsible for Lunch Man's Success

This is a story of two women and a King. It also has to do with "one-arm" luncheoners, Florida real estate and Rudyard Kipling.

We'll pass for a moment over the other characters to introduce "King" Kelsey who built up a fortune of millions through operation of a chain of "come and get it" eating places in Boston and many other cities, who lost his fortune in Florida land and then took hold of old Kid Pale, present a strong forefinger on the "Kid's" Adam's Apple and rode along to another great fortune.

This news dispatch from down Florida way is the latest chapter in the surprising business romance of Harry Kelsey.

'HONOR BRIDE' SAVED FROM DEPORTATION

Carmela Suriani, Italian immigrant girl mother, who was saved from deportation by Judge Lowell in Federal Court when he recognized her marriage to the father of her fiancé. Carmela's child was born after the fiancé had gone to the World War and been slain, whereupon, her fiancé's father, recalling an ancient Italian custom, went through a marriage ceremony with her. He went his way and she came to America a year ago. Immigration authorities, learning that her husband was dead, had ordered her deportation.

GARY SEES GREAT ERA OF TRADE

Steel Magnate Declares United States is Due for Record Wave of Prosperity

New York, Oct. 23 (AP).—The United States is on the verge of an era of great prosperity, Elbert H. Gary, chairman of the United States Steel Corporation, asserted today in an address opening the 25th general meeting of the American Iron and Steel Institute.

"I tell you," he said, "before any other meeting of this kind and gentlemen will not have to go even into another room for orders. You will be turning business away."

Leaders in the project for a woman's court, woman-manned and woman-directed, are Mrs. Robert P. Herick and Mrs. George R. Peering, but every member of the Women's Municipal League is doing everything she can to aid in bringing the idea into actuality.

PLAN IS PUT TO POLICE HEAD

Municipal League, After Parley in Washington, Sends Plea to Wilson

A women's court, with a woman judge and all women officials, to handle peculiarly feminine cases of law violation or moral fracture, will be proposed shortly to Police Commissioner Wilson.

The plan, with every angle worked out in theory and ready for presentation to a head. The call by Mrs. Van Winkle, who is also director of the women's division of the metropolitan police department in Washington, proving a great spur to the movement.

In advocating the plan today, Mrs. Herick declared that only a woman's organization can deal frankly and fairly with many of the offenses committed by women and children in the understanding and corrective manner that is helpful.

TRAFFIC COP WARNS ELDERLY PERSONS TO BE ALERT

SAVE-A-LIFE!
This is the third article by Mounted Traffic officer John J. McArde, who, under auspices of the Massachusetts Safety Council, is warning war in the schools, before auto bodies and wherever he finds opportunity, against child-killing and adult-killing by automobiles.

By OFFICER JOHN J. MCARDE.
The safest person on the highways in Boston, or, for that matter, in any large New England city, seem to be the ones between the ages of six and sixty.

We are all familiar with the accidents that happen to children too young to realize the speed of approaching automobiles or the dangers that may be in the highway when they run out suddenly from behind a parked car.

Few people realize, however, that there has been a steady increase in the death of elderly persons during the past two years. This is not only true in Boston, but elsewhere in Massachusetts.

Any traffic man who has stood on duty and seen tens of thousands of people cross the street in familiar with the nervousness of the elderly person who leaves the sidewalk.

His or her footstep is slow, it comes much slower than they were a few years ago. Indeed, the elderly person requires twice the time to cross the street than is taken by other people. Many of them seem to feel that because of their age and infirmities ought to recognize their presence and come to a full stop to permit them to go by.

The fact is, of course, that the motorist, especially when he is trying to make time between crossings, does not recognize the individual type of the pedestrian until it is too late to put on his brakes effectively. The result is that many of these accidents occur and a large portion of them are fatal.

The elderly person often becomes confused when part way across the street, and instead of continuing on his journey turns about and walks into the track of a car that otherwise would have struck him. It isn't enough to warn elderly

people of this danger. Their only protection when by themselves is to use the cross walks and never leave the sidewalk while any motor traffic is close at hand.

The matter is one that must be taken up at home and discussed by the family. Study the habits of your elderly person as you study the habits of your children, and if you find they are having narrow escapes when crossing the street see that they do not attempt to do so unattended.

The last hundred thousand cars licensed in Massachusetts seem to have created a more serious problem than ever existed before. The record of deaths of elderly persons is going to be out of proportion to the increase in accidents. Not only are the elderly members of a family beloved, but many of them represent a broad business experience, which is very valuable to the community. If this is a new thought to some of you, take it to heart and think it over.

The strength and last article by "Mac" will appear tomorrow in the Boston Evening American.

SAVE-A-LIFE!
A reward of special merit medal is that awarded to the driver of a car because the Boston photo.

WIN SAVE-A-LIFE AWARDS

Marion Hickey, No. 161 Humer street, Newton.

153883, which is registered in the name of the City Engineer's department.

A day or so ago an investigator for the Boston Evening American, while standing at Westmoreland street, Lowell, saw the Prescott street, Lowell, saw the driver of this car exhibit excellent and instantaneous judgment and thereby save the life of a child.

A mother, interested in gossip, forgetting for the time being her little baby toddling around at her feet, did not notice the child fall into the street, but the driver of the car, No. 153883 did, and steered a few

Frances Hutchins, No. 11 Haver street, Atlantic.

inches from the child's head. It is such driving as this that the Boston Evening American is rewarding.

Every day ten awards are rewarded with a \$50 and place each. Fifty children who cross streets properly are also rewarded with two dollar bills each. The names of the two winners and the children who appear daily in the Boston Evening American. Auto winners' names are reported for one week. Cash rewards are called for in the meantime. The names of children winners are published once only here.

Billy Linehan, No. 15 Southern avenue, Boston.

BEWARE THE COUGH OR COLD THAT HANGS ON

Chronic Coughs and Persistent Colds Lead to Serious Troubles. You Can Stop Them Now With Creomulsion, an Emulsified Creosote That is Pleasant to Take.

Persistent coughs and colds lead to serious trouble. You can stop them now with Creomulsion, an emulsified creosote that is pleasant to take. Creomulsion is a new medical discovery with two-fold action; it soothes and heals the inflamed membranes and inhibits germ growth.

Of all known drugs, creosote is recognized by high medical authorities as one of the greatest healing agents for persistent coughs and colds and other forms of throat troubles. Creomulsion contains, in addition to creosote, other healing elements which soothe and heal the inflamed membranes and stop the irritation and inflammation while the creosote goes on to the stomach, is absorbed into the blood, attacks the seat of the trouble and checks the growth of the germs.

Creomulsion is guaranteed satisfactory in the treatment of persistent coughs and colds, bronchitis, whooping cough and other forms of respiratory diseases, and is excellent for building up the system after cold or flu. Money refunded on any cough or cold is not relieved after taking according to directions.

Your druggist will Creomulsion Company, Atlanta, Ga.

MASONIC CLUBS TO HOLD SERVICES ON SUNDAY
On observation of Masonic Club Sunday, members of clubs in Boston and vicinity affiliated with the National League of Masonic Clubs will participate in a service at the Church of the Good Shepherd, Cortes street. An address will be delivered by the Rev. George J. Prescott, who retired from active duty a few weeks ago after having served fifty years in the ministry. His subject will be "The Last Fifth Minute Should Elucidate Be Friendly."

6,000 EMPLOYEES TO GET SOFT COAL AT COST
Worcester, Oct. 22 (A.P.)—The American Steel & Wire Company today notified its employees that the company stands ready to supply them with bituminous coal without profit to the company. The initial offer is \$7.24 a ton at the mill. The employees may remove the coal themselves or the company will have it loaded at \$2 per ton extra. Any of the 6,000 employees on the payroll of the company may take advantage of this offer, the notice reads.

WM. F. BROOKS' 2 DIE ON WOOL OF CAMBRIDGE IS DEAD
Ex-Mayor Had Served City Devotedly for Eighteen Years
Former Mayor William F. Brooks of Cambridge, died shortly before noon today. His wife, Mrs. Jesse Waterman Brooks, and his three children were gathered around him when he passed away at his home, No. 10 Lincoln street.
Although he has not been in the best of health for the past six years, the former Mayor was active until a few weeks ago, when he complained of feeling ill and was confined to his home.
The death of Mr. Brooks closes for all time the story of one of the most active figures in Cambridge public life. Since 1897, when he entered the Common Council for his debut in the public service, the record of the former mayor is almost a continuous story of devotion to the city.
Until his death Mr. Brooks was chairman of the Board of Education Commissioners.
In 1919, when the present board was established by a special act of the State Legislature, the name of William F. Brooks was the first appointee.
Mr. Brooks is survived by his wife, Mrs. Brooks, who is a member of the Cambridge School Board; his son, William Francis, Jr., and two daughters, Isabelle F. and Dorothy.

SHIP IN WAY TO BOSTON
Drugs Kills Seaman; Stowaway's Body Found on Boat From Australia
Engine trouble wasn't the only bother accounted for by the steamer Eastern Sea, which arrived today almost three weeks late with a valuable cargo of Australian wool. Twice death visited her between the port and the head at Melbourne, Australia, and docked at the Army base pier today.
John Harbola, a seaman, died as a result of an overdose of some drugs. He was a resident of Alameda, Cal. At the Panama Canal it was found that engine troubles could not be overcome without a considerable delay, hence she was docked at Colon. And while tied up and undergoing repairs a young Peruvian, Eugenio "Popo," smuggled himself aboard and into the bunkers to await arrival in the land of promise.
Monday, off Cape Hatteras, two firemen, poking through the bunkers, found his body. Inquest today revealed that he had died of a hemorrhage. He was accused a burial at sea with full ceremony.
The dead stowaway was about twenty-five years old.
The Eastern Sea had 5,150 bales of the highest grade Australian wool in her cargo. This total aggregated almost 2,700,000 pounds and was the largest quantity of this staple brought into Boston in a long time.

11 HORSES ON FINAL LEG
Random, Vt., Oct. 22 (A.P.)—The seventh annual 800-mile endurance ride started by the cavalry branch of the army and the Federal Department of Agriculture to keep tabs on the development of different breeds of horses and to determine which are most suitable for army service drew to a close today.
The last of the five sixty-mile stunts was started in cloudy weather, with the nearby mountains covered with snow that fell during the night.
Snow fell also in the lowlands, but none of it had disappeared when the eleven horses started on their run to Boston and return. The roads were in good shape, and the route did not call for much steep hill climbing.
When the horses checked in late today they will be carefully examined as to their condition. Tomorrow the final judging will take place and the winner of the test will be announced. Speed, form and general condition figure in determining the best horse.
Fifteen horses started Monday. Two were withdrawn after that day's ride in Middlebury and return, because their condition was not up to par, and two more were taken out Wednesday. The horses went to Rutland on Tuesday, to Stowe on Wednesday and to Ripon, high in the mountains, yesterday.

Beacon Hill Children's Shoes Will WEAR!

Shoes that are backed by our fifty-three year reputation and found by hundreds of mothers to be the only correct answer to the question of children's shoe economy.

Great Cut in Prices

700

Scottish Heath Dresses

and other knitted dresses for Women & Misses

Great cuts have been made in the prices of Scottish Heath and other knitted dresses. Somebody, whether manufacturer of material or maker of dresses, made or bought more of these materials than they could use, and to dispose of them are making a great cut in prices. Possibly this is only temporary; but one thing is evident — there has been a big loss suffered somewhere.

Anticipating this great cut in price, we put it up to one of our best manufacturers—who had been making many of our beautiful Scottish Heath dresses during the season—told him we would like about five hundred dresses that regularly sell at 16.75 to 25.00 to sell at a very low price. First, he would not listen; but having only enough material for about two hundred dresses, finally made a price that would enable us to sell them for 9.85 and 16.75. We bought the dresses.

Then came another problem—how about dresses of the same quality in our own stocks? Only one thing to do. We have gone through them, taken two hundred and fifty of our 25.00, 22.50, 19.75 and 18.50 dresses and marked them down to 16.75, to meet the break in price; and also about two hundred and fifty that sell from 16.75, 14.50, 12.50, and marked them at 9.85—making one great sale—over seven hundred dresses, at 9.85 and 16.75.

\$9.85

Regular prices, 16.75, 14.50, 12.50

\$16.75

Regular prices, 25.00, 22.50, 19.75, 18.50

MAN'S SKILL BROKEN IN NEWTON MYSTERY
Newton police are trying to solve the mystery surrounding the injury of Thomas J. Quinn, of No. 28 Kensington street, Newton, found with his skull fractured and lying on Warwick road, near the Alameda golf links. Quinn, now in Newton Hospital, has been unable to explain. He was found by a resident of Warwick road, who notified the police. Investigation by Inspector Skeggs has disclosed that Quinn got out of an automobile operated by Edward Pausley of Newton several hours before he was found. Pausley was unable to shed any light on the case.

MILITARY FUNERAL FOR FLIER IN SOMERVILLE
A military funeral was given Lieutenant Albert J. Martin, U. S. A., one of the three aviators killed on Monday in the fall of an airplane at Cape May Courthouse, N. J., this afternoon in the Winter Hill Baptist Church, Somerville. Rev. Dr. Deane officiated. There were vocal selections rendered by the church quartet, a full pation from the United States Army Band acted as escort and fired a volley at the grave in Woodlawn Cemetery. Lieutenant Martin was born in Somerville and was a veteran of the World War. He is survived by his father, three brothers and two sisters.

ALL COPS OFFER BLOOD TO SAVE MAN GIRL HURT
Jersey City, N. J., Oct. 22 (A.P.)—Blood tests were taken at City Hospital today of patrolmen who offered their blood in a second transfusion to save the life of Patrolman Charles V. Kelly. Kelly was critically injured when a machine driven by Miss Mildred Matten of Alhambra, Pa., struck him. His injuries include six compound fractures of the leg. Miss Matten was charged with atrocious assault and battery. Every man on the force under 45 years old volunteered to give his blood.

Save on Boys' Mackinaws, Overcoats or Four Piece Vest Suits

NEW MILLIONS WON BY KESEY

Continued from Third Page.

1919 that Kelsey went to Florida for a vacation. He was bitten and bitter "bug" by the real estate bug. He invested heavily in Florida lands in two years he went broke.

Then it was that Mrs. McKee, a friend that her "King" was on the right road. In 1923 Mrs. Kelsey was doing her own housework in the farmer's cottage and the big Kelsey estate in Lexington. Sometimes the six children were hungry.

Kelsey wanted to quit Florida but his wife's indomitable spirit kept him

Col. Henry D. Lindsay, first lieutenant commander of the American Legion, said he had been told by a group of New York and Texas associates, has acquired the holdings in the same of the choice in the section.

Five miles of choice ocean fronting the north end of Palm Beach, Fla., and 10 miles of lake front on both east and west shores of Lake Worth, as well as the holdings in the section.

All of Kaley's remaining interests in Property Farms is transferred to the "A" trust.

That's it.

THE "A" TRUST

"King" won. Thirty millions dollars!

Mrs. Kelsey won't slave at more. The Kelsey kiddies won't hungry.

What about Kipling?

Harry Kelsey is a great Kipling fan." This pole-stirring bit from the poem "If" is quoted often to the "King" Kelsey when asked to epitomize his career:

"If you can meet with Triumph and Disaster
And treat these two imposters just the same
If you can make one heap of all your winnings
And risk it all once again on a single throw
pitch-as-is-comes
So did the "King" and he won

HAROLD LLOYD FILM AT METROPOLITAN MONDAY

Harold Lloyd, in "The Freshman," starting its engagement at the new Metropolitan, Monday morning, plays the role of the first-year student who thinks he's climbing the coveted heights of popularity on a trail of ice cream cones. These he lugs often, and largely with money he has earned by selling

By means of this dainty retirement, as well as the personality he has copied from heroes of college movies and novels, which he has studiously studied, he hopes to shake his throne Chat Trau voted to be the most popular man

BRITISH PLANE IN CRASH, OUT OF RACE

"Mystery" Monoplane Sinks
at Trials for Schneider
Cup

Bay Shore Park, Baltimore, Oct. 22 (A.P.)—Great Britain's "mystery plane," the supermarine Napier 84, crashed today during the navigability trials and is a total wreck. Captain Henry C. Bird, the pilot, is suffering from immersion and shock but escaped injury.

Bird had just taken off for the navigability and seaworthiness trials and was at an elevation of about 200 feet when a wing flutter apparently developed in both wings of the monoplane. Bird attempted at once to land.

As he struck the water the super-

son nosed down and immediately

the plane, pressing the pilot under

surface. Bird was wearing a lifebelt and

was able to clear himself and

swim to the surface as the Napier

sank.

In other racing airplanes of the

Mayor O'Hara Is In Methodist Men's Union

Worcester, Oct. 22 (A.P.)—Mayor Michael J. O'Hara, a devoted member of St. Marcellus and Mary's Roman Catholic parish, joined the Men's Union of the Wesleyan Methodist Church, of Worcester, today.

He is to attend tonight the first Fall meeting of the organization, which is to be held at the Wesleyan Methodist Church, of Worcester, today.

The Mayor has not deserted his Catholic faith, simply having been invited to join the union in the non-partisan discussion of matters of civic welfare.

One noted down and immediately

\$3,500 TO COPS IN MISSILE MYSTERY

Keith's Asks Permission to
Split Reward Among
Six Police

Permission to distribute a reward of \$3,500 between a sergeant and five patrolmen of the Boston Police Department for the arrest of Walter Matthews, alleged missile thrower in Keith's Theatre, was sought by the management of the theatre today at the office of Police Commissioner Herbert A. Wilson.

The Keith interests would give Sergeant Charles Wallace of the traffic squad \$1,000 and \$500 each to Traffic Officers Thomas Joyce and H. J. LaCrosse and Patrolmen Patrick McNamee of the Brighton station, Leslie Rickford of the Milk street station and John M. White of the Jamaica Plain station.

Matthews, a special officer in the theatre, was alleged to have been caught in the act of throwing a missile from the second balcony a week ago.

Police secreted in the gift work on the evening, placed him under arrest and he is now confined for observation at the Psychopathic Hospital.

Matthews appeared Monday in the Municipal Court.

The police to whom the Keith management wish to make the rewards will be notified that permission to do so has been asked of the commissioner and they, in turn, must file an application with him to receive the money.

FUGITIVE POSTMASTER
PICKED UP AS VAGRANT

Leaneaky, former postmaster of Tyler, Pa., was picked up as a vagrant today in the West End by police who turned him over to Federal authorities as a fugitive from justice.

Leaneaky has been sought for more than a month on a charge of embezzling \$500 of postal funds.

Leaneaky said he was penniless. U. S. Commissioner Tenney in the Federal Building ordered him sent to Tyler.

TODAY

In charter a corporation to encourage athletes and destroy the power of church and clergy.

Quits a program, but the judge wouldn't let it go through.

In Russia, on the other hand, a delegation of orthodox priests and bishops begged the government "for an equal civil status with citizens of the Soviet state."

The priests asked the right to publish religious literature and have for their children (priests of the Greek church marry) the same education as is given to the children of peasants. The Russian government says NO.

AGAIN YESTERDAY Wall Street celebrated a 2,000,000 share day. A seat on the Stock Exchange has sold for \$125,000.

It is a record price, but cheap when you consider that it makes the purchaser one of the happy eleven hundred that make "top" eight of one per cent. on the nation's stock speculations. It's a valuable asset for a man with sound nerves, a cool head, able to keep gambling to his clients. But it is not easy to find 1,100 men of that kind.

VARIOUS ADVERTISEMENTS of Florida land schemes have published the statement that this writer is directly or indirectly connected with such schemes, and requests for information as to their value come from many parts of the country.

Florida is a great State and will be greater. But the writer is not connected in any way whatever with any Florida land scheme. If he ever had any Florida or other land for sale, that fact will be announced later.

STATE'S WIGGLING OUT OF DEBT; PAYS 3 MILLION

A reduction of \$1,863,824.33 in the direct debt and of \$1,863,824.33 in the contingent debt for the fiscal year 1924 is shown in the State balance sheet compiled by the comptroller.

On November 30, 1924, the end of the fiscal year, the net direct debt was \$18,232,807.11 and the net contingent debt \$50,381,834.92.

32 GOVERNORS PROTEST U. S. ESTATE TAX

Demand Repeal of Federal
Law in Favor of State
Levy

Washington, Oct. 22 (A.P.)—Thirty-two Governors brought their case for repeal of the Federal inheritance tax before the House Ways and Means Committee today at its hearing on tax reduction.

Governor Walker of Georgia, who presented a resolution approved by the thirty-two said other governors also had endorsed it but he named the executives of Iowa, Wisconsin, California and Oregon as opposed.

"We believe the tax could not and should not have been passed," he said, "except for the emergency created by the war. We believe this levy should be left for use by the States alone."

RAPS FLORIDA.

The Governor added that his State had "virtually repealed its tax, following somewhat the poor example of Florida."

"As a matter of principle," he said, "I feel this legislation is a distinct invasion of states' rights."

The question of gift tax was not considered by the conference of Governors, he said, although he believed it the same in principle as inheritance tax.

The constitutionality of the Federal inheritance levy was questioned by Governor Whitfield, of Mississippi, who said it was an invasion of states' rights.

"Why not let the Federal government collect the estate tax?" asked Representative Whitfield, of Mississippi, "and turn it all back to the States?"

Governor Whitfield approved this but said States would open a race to pass laws which would attract the most capital and consequently lower rates would probably result.

Governor Frank of Virginia, argued "there must be a common ground between the State and Federal governments on taxation agreeable to business."

FOR "MORAL CODE."

"We can't compare with Florida in abandoning the inheritance tax," he continued, "and something ought to be done preventing this bidding between States for citizens. Competition is a great thing but it won't work among sovereign states. There ought to be a code of morals."

Representative Garner, Democrat, Texas, suggested that the Federal government could force uniformity among States by collecting the levy itself and verbatim returning it to the State.

"We can't compare with Florida in abandoning the inheritance tax," he continued, "and something ought to be done preventing this bidding between States for citizens. Competition is a great thing but it won't work among sovereign states. There ought to be a code of morals."

ROAD CHANGES ASKED NEAR NEW FORD PLANT

Summit Automobile Manufacturers
shut an order presented by Al
demus William F. Burn, asking
Mayor Webster to petition State
authorities to restore to the city
count of Myrtle avenue, from Main
avenue to the westerly side of Mid-

dlesex avenue. Altemus Burn
wishes better lighting for Myrtle ave-
nue, where there have been many
auto accidents, and also to have the
street railway tracks depressed to
give a wider roadway for motor
vehicles. The new Ford plant is
being erected on Myrtle avenue, near
the site where the changes are pro-
posed.

COOLIDGE RECEIVES OWN CHURCH PILGRIMS

Washington, Oct. 22 (A.P.)—Pres-
ident and Mrs. Coolidge received in
the Blue Room of the White House
today 325 members of the Congrega-
tional young people's pilgrimage,
who are here attending the Congrega-
tionalist convention.

The PROOF of Experience

What Users Say

You've read in New Colonial advertising how we eliminated from NEW COLONIAL GASOLINE the "borderland" mixture that causes knocking, crank-case dilution, low mileage, and loss of pep and power.

You've read how NEW COLONIAL GAS enables you to "push your spark way up," and keep it there. You were invited to put NEW COLONIAL GAS to any test you might conceive. You were shown the results of scientific laboratory "knock tests"—proving conclusively that the NEW COLONIAL GAS was free from knocks.

And now we give you proof of actual road results—what users say of NEW COLONIAL GASOLINE. Space permits us to reproduce only a very few of these comments. These are the average—NOT the unusual. And they fairly reflect the enthusiasm with which NEW COLONIAL GASOLINE has been received by New England motorists since our first announcement.

You have the proof—and know the story. Why not use our "SPECIAL OFFER" today—and learn how New Colonial Gasoline improves the performance of any car.

COLONIAL FILLING STATIONS, Inc.
BOSTON, MASS.
MEMBER FILLING STATIONS DEPT. FILLING STATIONS
VICTORY FILLING STATIONS

"Filled up Studebaker Big Six with 18 gallons of New Colonial; drove to Bangor, Maine—237 miles—and 18 gallons left. Filled up at Bangor with another gasoline—and had to refuel at Portsmouth on return trip."

"Can now make Essex Street from Warren Street, up one hill on Colonial—without before using New."

"The motor starts the instant the starter button is touched, and also runs much smoother with absolutely no knocks."

"Carbon knocking in my machine ceased when I used the New Colonial Gas. And when by way of experiment, I used another well-known gasoline, the carbon knocking was resumed on the hills."

"I have had a knock till I had New Colonial. Now it's entirely gone."

"1917 White truck runs as good as though it were only a year old. More mileage, pep, and speed."

"My car knocked on the short hill, and I was ready to have the carbon taken out. Started using New Colonial Gas, and now find my car won't knock no matter how steep the hill."

"Tried 10 gallons at your agent's expense, with underestimating cost. It wasn't the best gas ever used. I wouldn't get him a cent. Used it—paid him \$1.50—gave him a bucket of pep—and bought another tank full."

LAUDS BOSTON HIGH PUPILS AS 'BRIGHTEST'

Commerce Chamber Speaker Finds Them Well Informed on Important Subjects

Pupils in Boston's high schools are among the best informed young people in the city, says William M. Day, manager of the transportation bureau of the Boston Chamber of Commerce. There's a reason for his view.

Mr. Day has been visiting various schools giving talks on New England transportation.

"I was told my listeners were young," he should talk to them in a B. C. language," says Mr. Day. "I prepared my talk accordingly, and said that."

Just the other afternoon I addressed 250 boys in the graduating class at the High School of Commerce. I talked 40 minutes, which I considered long enough and then of

Society Leaders Ride Tomorrow

Willowdale Races at Hamilton Followed by Myopia Drag Hunt

EVERY tint of the rainbow will flash over Essex County hillsides tomorrow when that smart sport, event, the "Willowdale" races is given off from Bradley W. Palmer's Hamilton estate.

It's truly a gala day, for immediately the races are completed, Mr. Palmer plays the host at Willowdale for a hunt luncheon and the afternoon is to be devoted to a drag hounds meet and the evening to dancing the last at the Myopia Club house in Hamilton.

GENTLEMEN RIDERS WHO are interested in the "Willowdale" races include practically everyone down Myopia way. Bayard Tuckerman, Charles, Yellow and Black, Alvin P. Palmer, Bertwell and Gold, John R. Macomber, John and Edna, and Compton Smith's Violet and White will take and the autumn foliage.

JAMES W. APPLETON, reformed Master of Fox Hounds for Myopia, sports his Blue and Black, Augustus P. Goodwin, his White and Black and the Ladyford Farm Stables, their Blue and Orange. No meet is complete without the feminine representation of course, and tomorrow Mrs. Albert C. Burpee and Mrs. John S. Lawrence have mounted riders.

MR. BURRAGE WILL wear his white colors, while with green hands and ride her hunter, Milton M. In the contest for the National Hunt Cup, Mr. Alvin R. Palmer will ride Mrs. Lawrence's Jetmar and wear her pink and black colors.

THAT WILLIAM ALMAY LIGHT Blue and orange colors and his famous hunter "Hard Bunking" are entered for the National Hunt Cup. The contest is a very important one. Mr. Almay's horse was the steeplechase horse two years ago and everyone will watch "Hard Bunking's" performance tomorrow.

BAYARD TUCKERMAN, JR., has his Imperial entered for the National, P. T. Roche his Kiffree, the Ladyford Farm Stables has Almay, and John R. Macomber his beautiful spirited field hunter, "Hard Bunking's" performance tomorrow.

ONE OF THE prettiest events in the last on the schedule, 12:30 p. m., for the New England Hunt Team Cup. Three hunt teams are entered, of three horses each, representing those distinctive hunt centers, Norfolk, Myopia and Gorton.

JOHN S. PALMER, Moorhead Patterson and Nathaniel Thayer ride for Norfolk. In Appleton, Bayard Tuckerman, Alvin P. Palmer, Charles Sumner, Hild, Jr., Myopia. In Canary Yellow, and Messrs. William Almay, Jr., with H. W. Smith and C. Smith wear the Bright Blue of the Gorton Hunt.

THOMAS G. FROTHINGHAM, Bayard Warren, Jr., Frederick J. Almy, Bayard Tuckerman, Jr., James W. Appleton, Bradley W. Palmer, Gordon C. Prince, William Almy, Jr., Alvin P. Palmer, Frederick Ayer, Francis Lee Higginson, Jr., Dudley L. Rogers, Francis R. Appleton, Jr., and H. T. Palmer are the masculine contingent putting

MRS. GASPAR HACON, a patroness for the ultra chic Senior Supper Dances which shine forth pre-eminent in the Winter calendar and take place at the Co-Op Plaza.

MRS. NATHANIEL THAYER's house dance in Lancaster honoring Mrs. Mabel Thayer, lovely daughter of Mrs. Bayard Thayer, greatly interests all the distinguished relatives of this delightful hostess. The dancing will be an event for the occasion, as will also other Thayer homes in that beautiful country town.

SOME HALF-DOZEN talented players do the company, with Mrs. Bayard Thayer's "Holly Hill" suite in the vanguard as regards interior beauty added to landscape gardening. The Thayer's, adding delight to the horticultural when they glow with the wine and gold "Chateau Regal Hill" which bounds Mrs. Thayer's name.

Just the stocking for sport and street wear. They are light weight but warm. The high grade wool used is mixed with just enough cotton to make them soft and to prevent irritating the skin or chafing.

Exceptional stockings for 1.00 a pair. Feet and legs are shaped to fit perfectly. Reinforced garter top, toe, sole and heel insure extra wear.

Every pair guaranteed to give entire satisfaction or money will be refunded without question.

In peacock, beige, beaver, fawn, camel, grey, black and white, dark brown, lovat, powder blue. And in shades to match the new jersey and balbriggan dresses—spruce, moose, Flemish, copper, cathedral.

Sizes 8½ to 10½. Mail and Phone Orders Promptly Filled.

GET SOFT COAL NOW, WARNS HULTMAN

"Don't Be Caught Napping." He Says, Seeing Frost in the Distance

Fearful that a sudden cold snap will catch householders napping, Fuel Administrator Eugene C. Hultman today urged as immediate stock up with low volatile soft coal as substitutes for anthracite.

Pointing out the advice of the Federal Reserve Board of the several days ago of a large amount of New River coal, Hultman points out that 200 tons of the Pennsylvania variety have been ordered by the city. The latter coal, he says, is the first of a shipment of several thousand more tons.

CAILLAUX MAY QUIT; BUDGET IS HELD UP

Fate of French Financial Head Will Be Decided at Cabinet Session

Paris, Oct. 23 (U.S.A.)—The French Cabinet met today and discussed the financial situation and heard M. Caillaux's budget proposals, but took no decisive action.

The whole question of the budget and new financial measures was not over until Monday when President Doumergue will preside over a Cabinet meeting. The latter will decide on the future of M. Caillaux.

ON THE LINKS

YOU can go on with the game regardless of weather conditions if you guard against frost irritation.

Allenburys' Glycyrrhine and Black Current Pastilles are invaluable as a protection against sore throat, irritation and hoarseness.

They are most palatable and may be taken as often as desired without causing any ill-effects, as they contain nothing deleterious.

Most effective in relieving throat irritation caused by too much smoking.

Made in England by Allen & Henshaws Ltd., Established 1713 and whose products are the "CRITERION OF EXCELLENCE."

At All Druggists. Sole Importers: J. F. DUBOIS & CO., 202 Beaman Street, New York City.

Walk on wings

PLASTIC SHOES are the nearest thing to wings you've ever worn. Their comfort is not the result of a lucky discovery in shoe making. It is the fruit of a painstaking study of the human foot, searching out its weaknesses and meeting them with definite corrective features.

We found, for example, that the arch requires support. Yet it must be support which does not restrict the normal action of arch muscles. Therefore the Plastic arch is flexible. And every other Plastic feature is just as sensible.

COP STOPS RUNAWAY IN DARING CIRCUS STUNT

A horse, frightened by a passing automobile, dashed down Pearl street Cambridge, through a throng of school children and was finally stopped by Patrolman Timothy Falvey of the Central square station, after it had knocked down a safety lantern.

Patrolman Falvey, when the horse started its wild flight, leaped on the running board of a truck parked nearby, ordered the driver to give chase and then jumped from the running board on to the horse's back when the car drew close, several lives of small children were endangered.

EDITH PORTER TO WED DUTCH BURGOMASTER

Newton Divorcee's Second Romance Began in Yosemite Valley

A honeymoon in the land of windmills and wooden shoes heads the second installment in the romance of Edith Porter Dubay of No. 11 Woodward street Newton Highlands, who, following her divorce from J. H. Dubay, has filed her intention of marrying Burgomaster Tilder Peck of Amsterdam, Netherlands. When divorced she was allowed to resume her maiden name.

It was four years ago amidst the picturesque setting of the Yosemite Valley, that Edith Porter Dubay met her Dutch burgomaster, and opened the pages to a love correspondence that has been carried on for four years across the span of ocean waves.

When she mapped out the route for an European trip two years ago, she thought herself of the dashing burgomaster of her former Yosemite Valley romance, and accordingly included Holland in travel tour.

Do you think Amsterdam would be a point of interest for me to visit on my trip? she wrote Herry Peck, who straightway replied by return post—“Very! Among points of interest I live there.”

Only two weeks ago Herry Peck arrived in Boston bag and baggage, released to occupy around the pretty Newton Highlands divorcee's home and heart. Marriage intentions were filed by the international couple on Wednesday and Mrs. Porter smilingly told the Boston Evening American today that the wedding ceremony would take place in a very few days.

“I suppose the wedding has an international significance,” said Mrs. Porter today, “but to me it will be only a quiet wedding, attended by my family and a few friends.”

“Herry Peck wishes the wedding to be kept just as quiet as possible. That is a Dutch custom that I am going to observe,” said the bride-to-be laughingly.

The small family wedding will be followed by the immediate leave-taking of the couple to the land of windmills where they will make their home, Mrs. Porter stated. At present she and her two small children are making their home with her mother, Mrs. Anderson Porter.

DUBLIN SWARMS TO GREET ARCHBISHOP MANNIX
Dublin, Oct. 23 (A.P.)—An enormous crowd which held up traffic in the principal streets of Dublin for two hours today welcomed Archbishop Daniel J. Mannix of Melbourne, Australia, when he arrived to receive formally the freedom of the city voted him in 1920.

Archbishop Mannix's support of the Irish Republican cause prevented the holding of this ceremony before today.

Archbishop Mannix addressed the crowd, declaring that he still stood for the right of the Irish to govern themselves without interference from any outside source.

Ireland, he said, could never be prosperous until it was governed by the people of Ireland.

45 DRIVEN TO STREET BY FIRES IN WEST END

Forty-five persons were smothered out of their apartments early today when basement and first floor flames got under way in two South End tenement blocks.

The first fire was in the three-story dwelling in No. 31 Oak street. Fire started from undetermined cause in the lower tenement kitchen, filled the house with smoke, and scared twenty-five dwellers into the street. Damage was given at \$200.

Box No. 1544 called apparatus to fight fire in the basement under the Glass-Hove Drug Company, No. 63 Warren avenue. Smoke filtered to the top and third floor, and about twenty-five tenants took to the street.

\$50,000 FIRE SWEEPS BUILDING IN WORCESTER

Worcester, Oct. 23.—Threatening for a time to destroy an entire block along Front street, fire, which broke out in the five-story brick building at No. 2 Cotton place, was brought under control early today after several hours' battle and with a property loss of \$50,000.

The fire is believed to have started in the basement or on the ground floor of the structure, which is owned and used as a warehouse by L. Home.

The building is situated at Spring and Front streets which is recognized by the fire department to be the center of one of the city's greatest fire hazards.

The building was formerly owned by the Hudson Belt Company which suffered some loss in the blaze.

FULLER THANKS 2 IN SOMERVILLE FOR CAPTURE
Letters of appreciation for their capture of Myron L. Smith, State Prison inmate, who escaped that institution on October 12, were received from Governor Fuller today by Lieutenant James M. Harmon and Patrolman Peter Moore of the Somerville police. They caught Smith on the morning after his escape in a stable in Myrtle avenue, near Moreland street.

BULGARS YIELD AS GREGCIANS BURN TOWN

New Balkan Outbreak Believed Averted; Invaders to Hold Land Seized

LONDON, Oct. 23 (A.P.)—A town in Greece may be the prize of a Balkan war that never was fairly begun, it appeared today.

Further, Greek-Bulgarian border troubles had been averted by the Greek demands but further, the border town, which was the target of the Greek advance, was in flames according to advices from Athens.

The Bulgarian representative in Athens informed Premier Pangalos that Bulgaria agreed to the Greek demands for \$500,000 gold francs indemnity for Greek soldiers killed in the border fighting and an apology from Sofia, according to official dispatches.

Some advices from Athens declared that Perich already was occupied by Greek forces, but the indemnity generally credited said the Greek bombardment continued and that the Bulgarian town was in flames.

Best People Think It Smart to Drink, Cheat Dry Act

Washington, Oct. 23 (A.P.)—Prohibition never will be adequately enforced so long as "beer best people" consider it "smart and stylish" to serve and consume drinks procured in violation of the law.

That represents the opinion of Mrs. Mabel Walker Willebrandt, assistant attorney general in charge of prohibition cases. Mrs. Willebrandt expressed it before the National Council of the Congressional churches.

She said the Greeks will hold the territory already seized pending settlement of the indemnity.

League to Arbitrate in Balkan Clash Monday
Paris, Oct. 23 (A.P.)—The Council of the League of Nations will be called Monday to arbitrate the conflict between Greece and Bulgaria. The French foreign office announced today, Bulgaria requested intervention of the Council.

Advices from Athens reported that the League secretary had received a telegram from the Bulgarian government requesting immediate convening of the Council.

SEEK CAUSE OF ABSENTEEISM AMONG CLEKS

Retail Trade Board Starts Novel Research to Check Big Economic Waste

In an effort to ascertain the causes of absenteeism during the course of a year among the employees in the various stores of Boston, the Retail Trade Board of the Boston Chamber of Commerce is about to begin an important research, probably the first of its kind ever attempted in this country or abroad.

This research will be made under direction of an advisory committee, composed of eminent business men, and will be a study of the causes of absenteeism.

During the course of a year there is much absenteeism among employees in Boston stores. It is hoped this research will determine the cause of the absenteeism and suggest a way to a solution to the problem.

'Ma' Neutral, 'Sis' A Rooter, Sons Bitter Foes

New Bedford, Oct. 23 (A.P.)—When Dartmouth High and Woodstock schools of this city met on the gridiron tomorrow afternoon, Mrs. Jane Crane of Rock's Dundee road, South Dartmouth, will find her problem harder to solve than that Mrs. Mary E. Callahan of Lawrence, who six years ago sat in the Yale Bowl and watched her two sons, "Bitter" of Princeton and "Tim" of Yale, play on opposite benches.

Tomorrow George, and John Crane will appear at left guard and left tackle for Woodstock, while Stuart Crane at right end for Dartmouth High. Miss Dorothy Crane, a sister of the boys, and a teacher at Dartmouth, will be rooting for Dartmouth, but her mother has expressed herself as being neutral.

MAN "DOESN'T PAY" IN SYMINGTON CASE
New York, Oct. 23 (A.P.)—On motion of the district attorney, the criminal charges laid against Talour W. Chambers, wealthy urban man, as a result of his testimony in the divorce suit of Thomas H. Symington was dismissed today in special session.

Chambers was named as co-defendant by Symington and when called as a witness described the alleged relations in some detail. His arrest on a warrant was immediate.

DIVORCED FIFTH TIME; WILL WED BARON

Mrs. George Myers Church of New York to Become Rich Austrian's Bride

Paris, Oct. 23 (A.P.)—Judgment in favor of Mrs. George Myers Church was issued by the Paris divorce court, four days in advance of schedule.

According to friends here, the fact that Mrs. Church will land in New York from the Benares free from the ties of her fifth matrimonial venture is likely to hasten the announcement of her sixth engagement.

This time her friends expect her to wed Baron Harzog.

While Lady Deane, her lawyer here, today refused to discuss his client's affairs, he would not deny that Mrs. Church must soon return to Paris if she intends to cash the \$100,000 awarded her in the divorce.

It is understood here that Baron Harzog is a rich Austrian banker residing in Vienna, where the couple will make their home if, as anticipated, their present plans are carried out and the wedding performed in New York before the end of the year.

POLICE WANT MOTHER'S OCT

Brockton, Oct. 23—Court action brought by Mrs. Rose Gillies of No. 143 Main street, will have to be brought against Amos A. Fontaine, whom she charges made improper advances toward her daughter, Gladys, before the Brockton police will take further interest in the case. Fontaine runs an employment agency.

"Till Mrs. Gillies makes up her mind whether she will proceed with action or not I am done with the case," Mrs. Gillies before the Brockton police. "I haven't decided what to do with it. I haven't decided what to do with it. I haven't decided what to do with it."

Fontaine is awaiting action by Mrs. Gillies. He is willing to have the matter dropped, he claims, but will enter a charge if Mrs. Gillies goes into court with the matter.

CASEY CAMPAIGNING AS BUSINESSMAN

James D. Casey, Jamaica Plain, is making an active campaign for place on the school committee, and is stressing the fact that the position is one of extreme importance from a business standpoint. About one-third of the money raised by taxation in Boston is spent for the maintenance of public schools, and he considers it essential for a business administration. He feels qualified by training and experience for the place, he says, because of the fact he is a broker. He has not been endorsed by the Public School Association, which he claims is a mysterious "Goo Goo" organization. Such a group has taken the self-appointed task of controlling the children. He advocates larger vocational training as a need for the business interests of Boston, and he is also for limitation of income to forty pupils.

MITCHELL GETS ARMY CHARGES SPECIFIED

Accused of Conduct Prejudicial to Good Order and Military Discipline

Washington, Oct. 22 (A.P.)—Confronted to the prejudice of good order and military discipline was charged against Colonel William Mitchell today in court martial specifications served upon him as a result of his attack several weeks ago on the conduct of the army and navy at sea.

The statement issued by Colonel Mitchell at San Antonio after the crash of the Shenandoah said the formal accusation, constituted insubordination and was highly contemptuous and disrespectful to the War Department.

The charges are brought under the article of war which deals with general offenses against the discipline and good order of the army.

Technical arrest probably will not take place until just before the officer goes on trial next week, although in the meantime he remains under orders not to leave Washington.

Trying to Earn Honest Living, Says Davis

Washington, Oct. 22 (A.P.)—Rev. John W. Davis, defeated Democratic presidential nominee in 1924, when asked to comment on the political outlook, here to plead a case before the Supreme Court, Davis said:

"I'm trying my best to earn an honest living."

This was the observation today of John W. Davis, defeated Democratic presidential nominee in 1924, when asked to comment on the political outlook. Here to plead a case before the Supreme Court, Davis said:

"I'm trying my best to earn an honest living."

PASTOR GROOM KILLED, BRIDE HURT IN HOLY LAND

Jerusalem, Oct. 22 (A.P.)—Rev. Warner Lewis, aged 25, of Bangor, Pa., was killed and his three-month-old bride, the former Miss Pearl Schuman of Burlington, La., was slightly injured when an automobile in which they were returning from the Mount of Olives overturned.

A guide was also killed and the chauffeur was injured. Rev. and Mrs. Lewis had intended to leave for Bagdad today with the Presbyterian Mesopotamian Mission.

DOUGLASS HITS TELEPHONE CO. EXTORTION

Tenth District Congressman to File Bill Calling for Federal Probe

Declaring that upon his return to Congress he will file a bill calling for a national investigation of the relationship of the American Telephone & Telegraph Company with its subsidiaries, Congressman John J. Douglass of the 10th Congressional district today joined the public and the Boston Evening American in the fight against the recent increase in rates.

Congressman Douglass said: "Since my advent in Congress, I have been intensely interested in all legislation pertaining to the curbing of the powers of corporations, and when Congress convenes, I will immediately file a bill asking for complete and national investigation of the relationship of the American Telephone & Telegraph Company with its subsidiaries."

WILLIAM BRYANT

"I am satisfied, as many thousands of others are, that the New England Telephone & Telegraph Company is nothing but the willing servant of the American people, as shown at the recent hearing before the Public Utilities Commission."

The New England company is essentially a part of the Bell System, as called. It is a division of the parent company which owns and controls it. The company admits this in one of its annual reports. It reads:

"The Bell System, the administration is in the American Telephone & Telegraph Company, the central company. Operation is in the associated companies, each operating on definite lines in their territories, such, in fact, as operating division and no more."

"And again in another annual report, the company admits that 'a universal telephone service can be had only through a nation-wide, intercommunicating system superimposed upon and connecting local exchange systems. It requires co-ordination which can be obtained only through one system, one policy and one centralized administration.'"

JOKE CONTRACT

"The annual report clearly shows that the American company has a direct property interest in the business, as well as in the plant and equipment of the New England company. The American company owns every telephone, every switchboard and every other apparatus used in the service."

"The contract between the two companies is a joke, but hardly a joke to stockholders of the New England company when it is shown that the American may at any time step in and seize the business."

"The Boston Evening American is to be commended for its sincere campaign to save the subscribers from having their pockets picked by a public service corporation."

FIRST OFFICER HELD AS SLAYER OF CAPT. CLEWS

Southampton, Eng., Oct. 22 (A.P.)—Thomas A. Towers, first officer of the Canadian Pacific liner Melita, was arrested today and remanded for one week on a charge of murdering captain Arthur Hlaywood Clews while the vessel was at Antwerp. Towers looked dead, but made no sign when the charge was read.

BOND'S CLOTHES

Never has one make of clothing seen such popularity as Bond's—never before has the selling of dependable clothes by the maker direct to the wearer reached such unqualified perfection. Two big factors enter into the success of this great organization. The first is in the making of the clothing, the second is in the method of marketing that clothing.

But Bond's entire system would be a failure, unless we saw to it—that *quality* comes first, for only thus can we build *permanent success*. Don't be satisfied with merely reading about Bond's Clothes, or hearing about them. Come to our store and let us show you. Our merchandise and the economy of buying it are the best arguments why you should wear Bond's Clothes.

★ ★ ★

At Bond's you will always see the newest styles first—for Bond's styles are designed by men who are in constant touch with the latest ideas as they are created. Our method of selling through our own stores keeps our stocks always fresh and complete—so if you see it at Bond's you can rest assured it's authentic.

Bond's Guarantee

No matter what garment you choose—no matter what price you pay—we want it to be exactly as you want it! If for any reasonable cause you are dissatisfied with it, bring it back. We will make it right. Can any store offer more?

Thousands of New Models

Bond's All Wool 2-PANTS SUITS

DAY and NIGHT SERVICE TILL 9 P. M.

Why Not Investigate?

Don't be skeptical!—for it's costing you money. Even if it has been impossible for you to find quality clothes elsewhere—at Bond's prices—do not let that keep you from coming to Bond's and seeing with your own eyes exactly what we are offering.

Bond's prices are lower because Bond's methods of selling are more economical. This is not because quality has been cut to meet a price, it is because distribution expense has been cut down to the minimum. If you do not know Bond's values—why not investigate?—and learn the truth of our statement.

★ ★ ★

Overcoats

They are all here—and they are all right, as you will see when you come to look through our tremendous stock. There is very little that money will buy that we haven't in stock, waiting for you. If you will do as your own judgment dictates you will buy your overcoat at Bond's.

'DIVORCE AT ANY COST' LAD TO WILDA

COMANCHE RESCUERS SAVE SECOND CREW

Word was received at the waterfront today that a second rescue on the high seas has been effected by the steamer Reaper, which saved the passengers and crew of the Comanche off the coast of Florida a few days ago.

Today the Reaper, en route to St. Augustine, Fla., came across a four-masted schooner, Roanoke, which had been broken to pieces by heavy seas and with her crew in the rigging awaiting help.

The Reaper sank a few minutes after the Reaper had taken the crew aboard.

The Reaper sailed today with her...

Do Babies Swallow 3 Million Pounds of Pins a Year?

Atlanta City, N. J., Oct. 23 (A.P.)—Three million pounds of cop- per is used every year in the manufacture of the common pin and the safety pin, the delegate to the National Hardware Association was told today by Harry H. R. Scofield, of the Copper and Brass Research Association, New York.

"An copper used for pins is the only copper which does not turn to a green color or later as scrap," he continued.

"We don't know what happens to all the pins. Perhaps the babies and dressmakers swallow them. Copper is the only material setting at its proper price and even below that level, he asserted, because production necessary during the war."

BARE DEAR OF STAR IN SUIT

Witness Says Miss Bennett
Wanted Frey and Did
Not Mind Expense

Minneapolis, N. Y., Oct. 23 (I.N.S.)—"Never mind the expense—what we want is the divorce."

Miss Wilma Bennett, musical comedy star, made this declaration to Charles C. Frey, attorney, according to testimony in Supreme Court here today by Hunter Johnson, a negro, formerly a butler in the pretty young actress' home in Great Neck, L. I.

Miss Bennett is being sued for \$100,000 by Mrs. Katherine M. Frey of Louisville, for the alleged seduction of Frey's affection.

Shortly before Johnson gave this testimony Miss Bennett denied from the witness stand she had ever made such a statement.

Johnson testified that in the Spring of 1924 Frey received a long distance call from Louisville at Miss Bennett's home and that Frey conversed with the person on the other end of the line the suit for divorce Frey had begun in Louisville.

After he hung up Johnson testified he turned to Miss Bennett and said: "I guess I'll have to make the trip to Louisville, but it will be expensive."

It was then, Johnson said, Miss Bennett told Frey to never mind the expense.

Both sides rested today, and it was believed the case would go to the jury before night.

3 SEIZED AT LYNN AS ROBBERS IN LODGINGS

Three New York men were arrested in an Oxford street lodging house in Lynn today after Jerome T. Dancy, one of the lodgers, had been robbed of \$61.

One of the three, it is alleged, threw the stolen cash out of a bath room window, but it landed on a window two floors below and was recovered.

The three are the brothers of the late Charles J. Dancy, a famous boxer, and Frank, Simon and Al were each and each a burglar.

According to the police, Dancy discovered a man in his room at 10 o'clock and he hid the intruder and fled. He was later found in the strong room. Dancy fled after the intruder had left that his \$61 was no more.

U. S. ASKS DISCHARGE OF WOMAN IN RUM RING CASE

The government's case against members of the Chicago Benefit Association, which is alleged to be a liquor ring, closed today with a motion by Assistant U. S. Attorney E. H. Stone asking Judge James M. Morton to discharge the jury in discharge of their duty.

Beck, Morton to the jury, the government's case against the defendants. Three persons were indicted. Three persons were indicted.

A motion to discharge the jury was made by Attorney General Ernest C. Hatch. He is an attorney defendant, was made by Attorney William H. Lewis. Judge Morton took the motion under advisement.

William Swartz, a defendant, admitted he was a member of the Chicago Benefit Association, but declared he always knew it to be a loan and benefit organization. Cross examination brought out that he never attended a meeting and was therefore unable to say what it did.

AUTHORIZE NEW BOND ISSUE FOR \$1,500,000

The Worcester State Credit Commission was authorized by the Public Utilities Commission to issue bonds to the value of \$1,500,000 at not less than 4 percent interest and not more than 5 percent.

Seeks Freedom

Mrs. Teravainen Blames Husband for "Fetting Charge,"
Denies \$50,000 Letter

Her voice ringing with indignation, Mrs. Minnie Teravainen declared in Federal Court today she had appeared to stop "fetting stones" about herself and Rev. John Lillback, and especially to deny she was the mother of his children.

Mrs. Teravainen took the stand as a witness for the plaintiff in the divorce case, for \$200,000 against Lillback, a Finnish news agent.

The newspaper published a letter, dated in 1924, which was signed by Mrs. Teravainen, and which was evidently of a nature to establish a relationship between her and Lillback.

Mrs. Teravainen denied she ever heard of Lillback, back making anything of the nature of a "fetting stone" to her congregation and public life. She was, however, willing to be a witness for the plaintiff in the divorce case.

Mrs. Teravainen is now a resident of West Duluth.

MRS. DICK ENDS HER \$5,000,000 ROMANCE

Paris, Oct. 23.—Mrs. William K. Dick, the former Madison Force and widow of J. J. Astor, is reported about to start divorce proceedings in Paris today.

"Mrs. Dick is extremely nervous about it," said an intimate friend today. "In fact she refuses to say anything about it for fear that a divorce has been decided upon and we cannot be sure of it."

The news, which was first heard of in the long time of the divorce, was a surprise to many of the friends of Mrs. Dick.

Mrs. Dick is a widow of J. J. Astor, who died in 1914. She was married to him in 1914. She was married to him in 1914.

'WOMAN IN CASE' AIDS PASTOR

Mrs. Teravainen Blames Husband for "Fetting Charge,"
Denies \$50,000 Letter

Her voice ringing with indignation, Mrs. Minnie Teravainen declared in Federal Court today she had appeared to stop "fetting stones" about herself and Rev. John Lillback, and especially to deny she was the mother of his children.

Mrs. Teravainen took the stand as a witness for the plaintiff in the divorce case, for \$200,000 against Lillback, a Finnish news agent.

The newspaper published a letter, dated in 1924, which was signed by Mrs. Teravainen, and which was evidently of a nature to establish a relationship between her and Lillback.

Mrs. Teravainen denied she ever heard of Lillback, back making anything of the nature of a "fetting stone" to her congregation and public life. She was, however, willing to be a witness for the plaintiff in the divorce case.

Mrs. Teravainen is now a resident of West Duluth.

Mrs. Teravainen made a sweeping denial of "fetting stones" about herself and Rev. John Lillback, and especially to deny she was the mother of his children.

PETER BLAKENEY, a carefree young man, is in love with Rosemary Foulkes, but he forgets to propose, and Jasper Tarkington wins her. Rosemary, a writer, is induced to go to Transylvania and arrange a series of articles intended to clear the air of much international unpleasantness. Instantly she finds herself in the midst of a group of plotters. Even her best friends are arrested as spies, and though her husband is a great help, he always seems to fail in his efforts. So Rosemary decides to watch and wait.

She then and Frank Horsting of "Rose Marie" (Photo by Charles H. Norton)

"Not now!" roared Jasper. "Why, sweetheart, any time is killing time with you!" But Rosemary pushed him away from her, fearful of the light that showed in his eyes.

(Copyright, 1925, George H. Brown Company.) CHAPTER XXIII.

WHEN Rosemary woke the next morning she felt convinced that the vision which she had had in Peter standing on the gravel walk and looking up at her window, was only a creation of her own fancy.

During breakfast Jasper told her that he had received word from his agent at Chicago, that the cricket match which should have been begun yesterday had to be postponed owing to the weather.

When Rosemary made no comment on the news, only a faint frown deepened out of the window, Jasper went on after a while.

"I am afraid it is a disappointment to all of us, as the weather can hardly be said to have improved, can it?"

"No," she said. "No it cannot."

"I am afraid it is a disappointment to all of us, as the weather can hardly be said to have improved, can it?"

"No," she said. "No it cannot."

DR. GEORGE W. GALVIN BUYS AUTOMOBILE FOR 2 CENTS

Second prize, in the Boston Evening American's "Automobile for 2 Cents" competition, is awarded to George W. Galvin, M. D., No. 180 Huntington Avenue, Boston, for the letter printed conspicuously elsewhere in this newspaper.

Dr. Galvin is a well-known physician of the city, who, at \$1.75 a minute, makes himself known to the Manager Editor and pays 2 cents, in cash, for his car.

If other contestants will read Dr. Galvin's letter carefully they will observe, first of all, its complete dissimilarity to the letter of Mr. William N. Ransley, printed yesterday, which captured the \$2,344 Packard.

REVIEWS SERVICE.

Mr. Ransley sets the praises of the Boston Evening American editorial; Dr. Galvin testifies to some of the many accomplishments of his favorite daily, sketchily reviewing so much of its twenty-one years of service as probably was possible within the 500 word limit. It is quite apparent that what the good doctor likes in a clean newspaper is an active newspaper, a broad newspaper, whose editorial seems to call for battle, a fighting newspaper.

The winner of the second prize in the "Why I Like the Boston Evening American" letter writing contest, is a native of Boston and has been a resident of Boston since he was four years old. He is a brother of the late J. Mitchell Galvin, well remembered as a genial gentleman who for a half-century served Boston as City Clerk and whose later years were spent in the service of a nationally known building company.

Dr. Galvin attended the public

DOCTOR SECOND IN AUTO LETTER TEST

Dr. George W. Galvin of Boston, and the Buick Sedan he gets for two cents as the second prize in the auto letter contest, in which thousands of readers submitted letters on "Why I Like the Boston Evening American."

respect an "emergency" hospital, in Haymarket square, this hospital was well along in years when the chief surgeon was called, one day, to the adjacent hotel, to treat a young woman member of

Woman Thompson's "Old Home-land" company. The lady was Alice Stuart Loomis, a sister of New York City. Within thirty days, Miss Loomis was Mrs. Galvin, and all who knew then testify that they have "lived happy ever after."

From the hospital and the hotel Dr. and Mrs. Galvin removed, fifteen years ago, to the present address in Huntington Avenue.

One of Dr. Galvin's dominating ideas is that there are many persons confined in hospitals for the incurable who are in need of a change of scene. He has been a pioneer in this line, and has been a pioneer in the use of the automobile as a means of transportation for the incurable. He has been a pioneer in the use of the automobile as a means of transportation for the incurable.

THIS LETTER WON SECOND PRIZE IN AUTO TEST

"WHY I LIKE THE BOSTON EVENING AMERICAN"
By GEORGE W. GALVIN, M.D.
No. 180 Huntington Avenue, Boston.

HAVE bought at least one copy of the American every day since 1904.

Why? The spirit of the paper, that spirit which has been revealed in such struggles as those for:

- Cheaper gas
- Cheaper electricity
- Direct taxation
- Direct election of Senators
- Shorter hours for women and children
- Pure food laws
- Curbing the loan shark
- Driving bucketshops from Boston
- Keeping the United States out of the League of Nations
- Salute the Journal which has spoken for the people against the telephone monopoly
- In such public causes, we see the Boston American militant.
- We have also seen its heart—
- Admirer the dependence of policemen killed on duty
- Recalling the bravest fireman
- In outings for mothers and children
- In that greatest of all newspaper charities, the Christmas Basket.

I could not be without the tonic of Brisbane's "Today" for the "blips," I prescribe ten minutes with "Kitty Kat."

Now? My morning observation is, "Yes, I read that in last night's American."

I find the Evening American spirit in some newspapers printed elsewhere, but those, too, are heart newspapers.

Is here the secret?

There is neither lack nor chance in the success of newspapers, any more than in that of railroads, automobiles, department stores.

Somewhere back of each success is the MAN.

The great American back of this largest organization of newspapers is William Randolph Hearst.

The spirit of the American is the spirit of the American.

That is why I like the Boston Evening American.

Rabbinovitz Confirmed

Mayor Curley today received from the Civil Service Commission confirmation of his appointment of Jacob Rabbinovitz as member of the Boston Conservation Bureau.

BRITISH LABOR LEADER LECTURES AT FORD HALL

Arthur Henderson, formerly Home Secretary in Ramsey MacDonald's labor Cabinet in England, will speak next Wednesday evening in Ford Hall, on "Labor's hopes for England." Title will be the only speech he will make in Massachusetts and one of the few he will deliver in the United States. Labor unions and women's clubs have reserved large blocks of tickets for the address.

IRVING T. BRUSH WILL ADDRESS HUB CHAMBER

Irving T. Brush, president of the Bush Terminal Company, New York, will be the speaker at the second assembly luncheon of the Boston Chamber of Commerce on Wednesday. Mr. Brush will speak on "Profiting by Experience on the Continent," a study of foreign affairs, troubles of Russia, observations in England and other nations.

BUICK is Always Among the Winners

We congratulate Dr. George W. Galvin on winning a Better Buick Sedan in the Boston Evening American Contest.

It seems natural to associate Buick with winners—for instance:—Seven members of the Pittsburgh Pirates own Buicks; Miss Helen Wills, America's foremost woman tennis player, is an enthusiastic Buick owner, and Tommy Milton, the speedway king, drives two new Buick cars.

Success and Buick go hand in hand.

MALONEY AND SOLOMON AWAIT SOUND OF GONG

HAMBONE BATTLES SKINNER

Boston Gets Back on Pro Boxing Map With Suffolk A. A. Show Tonight

By JACK CONWAY
RIP off the boxing lid! Jim Maloney, South Boston champion, and the spectacular King Solomon of Panama, will put Boston back on the boxing map tonight when they exchange punches in a ten round bout at the Suffolk A. A. show at Mechanics Building.

It is the first of a seasonal show in Boston in six weeks. It is also a meeting between two bitter rivals who rank out front in the heavy weight class.

It will be the third time that Maloney and Solomon have fought under the same roof and the same crowd. In the first encounter, Maloney won the decision after ten hard rounds of milling. The second was a close one, with a few solid shots by Maloney in the closing stages of the contest won for him the decision.

In the second round, Maloney was winning going into the third round. Solomon then drove Maloney to the ropes and dragged him to the canvas with a sweeping right hand smash to the chin. Maloney was given the benefit of a long count and regained his feet at the count of nine.

The bell later tingled for the end of the evening. Neither boxer heard it and they fought on in all fairness. Solomon then knocked out Maloney with a right to the chin, but the decision went to Maloney on a foul because the referee had ended before the dramatic wallop went whizzing through the air.

The winner tonight will have to gain the victory on his merits. There is no chance of a technical coming to the rescue of either ring star.

The boxing commission realizes as well as every body else that tonight's bill must be decisive and so it has instructed its officials to use common sense and to see that both boxes receive fair play.

Maloney rules a 10 to 9 favorite on the betting. Before his battle with Paul Berenbach, Solomon was a 10 to 9 choice over Maloney. The "war" boys seem to think Berenbach has softened Solomon up despite the claims of Weaver, Woodman and Lawrence that the King is a good fighter as ever and was only defeated by Paul The Paragon on account of the intense cold at the Polo Grounds on Columbus day.

There should not be any favorite.

Herb Treat's Football Lessons

The photograph, with Herb Treat, Boston Evening American football expert, shown at the left, illustrates how the offensive lineman has outgassed his defensive opponent. He has succeeded in getting a leglock on his man.

In tonight's bout, it is one of those fifty fifty affairs with each side having a fine chance of a victory.

The winner will be Jack Skinner at Mechanics Building on November 9. This is a real reason why Solomon and Maloney will be some all of their heavy artillery tonight.

Movies On the Harvard Game
 International News Reel has made elaborate preparations for covering the Harvard Dartmouth football game tomorrow. A staff of cameramen from New York, under the direction of L. C. deLottinville, one of the editors of International News Reel will come here and work with Nick Jones, International News Reel's representative in New York.

A complete laboratory has been engaged in Boston, and after the game, the negatives will be developed here and prints made to be distributed in local theatres through out New England. The arrangements provide for showing the game on the screens of leading theatres in Boston within two hours after the game.

A picture of the game will also be shown at the Metropolitan Modern, Boston Strand, Stier and other theatres.

I kept my help busy during the dull season making Overcoats.

ADIE PICKED FOR END VACANCY AT HARVARD

EX-CENTER TO BE WING TOMORROW

Pratt, Sophomore, May Get Call Over Nash, Veteran, at Tackle Against Green

By TED LYNCH.
Jack Adie will start at end for Harvard against Dartmouth tomorrow. Madison Sayles, the boy who caught the forward pass that enabled the Crimson to score against Holy Cross, will be on the opposite end.

For the past two days the coaches at Harvard have had Adie at the wing, which was left vacant by the injury to Ralstonall. Adie has been a member of the varsity squad for three years and will start against the "Big Green." The past two years he was a center and expected to hold the Harvard pilot position this fall. Bill Macomber, who is a perfect anapnecker reported this fall, however, and Adie became a second stringer.

Adie is fast and is a real tucker. If he makes good at the wing it will be another feather in the hat of end Coach Leo Leary. Leary has had a tough job this season. At the start he had Eddie Bonadoff and Krim Gamache as the leading candidates, but no sign of any great ability. Then Gamache was the victim of studies and Bradford proved of only ordinary caliber. With only one mediocre end Leary went into Coach Charles Daly's backfield squad and started to work on three backs, Madison Sayles, whose play is already known to the Division followers, Roger Doherty, and Fordyce. Sayles made good. Now Leary has worked another wonder and filled the vacancy at Ralstonall's berth.

If Adie does not come up to expectations, Roger Doherty will get the job. Leary was a star in his high school days as a back at Boston Latin. He has everything that a college end should have and if he would have a little more initiative he would have won the berth before this.

In all fairness to him, it should be said that he was a regular wing before he hurt his back three weeks ago and paved the way for Bill Ralstonall to shine. The tackle position is now the topic of discussion at Cambridge. Eddie Nash had the position upon the Holy Cross game, when injuries kept him on the sidelines. Pratt forced the Purple and made good. The question now arises as to which of the two will be given the assignment tomorrow. Nash has had two years of varsity experience, while Pratt is but a sophomore. We are inclined to believe that Coach Fisher will favor the sophomore and should this be the case the Big Green will face two boys who were yearlings last year, Joe Crowley, who will start in the backfield, also being a second year man.

There is much conjecture as to whether Clem Coady will play, as he has failed to don a uniform this week. The dose on his hip interferes back is that the coaches feel that a rest will aid the player in his minor injuries and at the same time will not affect his condition, as there is not an ounce of

Awaiting the Referee's Whistle

extra flesh on his frame. A boy that is sure to be in there tomorrow is Joe McGilone, the Irish quarter. With Captain Madison Dolph Cheek not in the best of shape, the coaches have been promoting the Native son as a replacement.

Joe Stafford, another young star, is indisposed and has failed to attend classes for the last two days. However, Stafford's dropping ability will not be missed, as Fred Mosley is now ready for action and his show may be the deciding factor in the game.

A sextet of husky football warriors who will be in evidence on the Stadium lawn tomorrow when Harvard and Dartmouth come together. Top row, left to right, Sayles, Harvard; Straight, Dartmouth, and Captain Cheek, Harvard. Below on right, Reeve, Dartmouth (top), Champion, Dartmouth (bottom). Keep your weather eye on the group and you should see some first-class gridiron work for each and every one is accomplished in all branches of the game.

DARTMOUTH ELEVEN IN HUB

Continued from First Page.

With, Harvard due to the result of the Harvard team last year and also to the fact the Green goal was the last to be crossed that week. There was plenty of Harvard money on hand however. Some wild money was paid at 2 to 1.

A crowd of more than 1,000 was expected for the game. The Harvard team was expected to win, but the Dartmouth team was expected to be a close game. The Harvard team was expected to win, but the Dartmouth team was expected to be a close game.

Dartmouth has a very good eleven. On the other hand, nobody should overlook the work of Harvard on the gridiron this season. Their defeat by Holy Cross last week means that whatever work spots were shown in the work of the Crimson eleven will be put into the game.

The sound as a whole is superior to last season, but the same can be said about the Harvard eleven. THREE MORE LIES, NOTHING ANY SWIFTER TO THE DARTMOUTH ELEVEN THAN TO THE TOMORROW GAME AND MAKE IT THREE STRAIGHT VICTORIES.

The Dartmouth football squad members were up to the task and were in the best of spirit. The appearance to have little to say about their game.

Although very much about the question of a victory over the Harvard team, the Dartmouth team is out to win, by all means.

The Dartmouth football players, coaches and trainers are based at the Hotel Bellevue, but upon proving the superiority of the Green over the Crimson of the month over Harvard, and confidence of success.

Other spectators are packed to overflowing with the excitement of the game. The Dartmouth players were to go to the stadium today for a last-minute check-up and a warm-up.

The Dartmouth players were to go to the stadium today for a last-minute check-up and a warm-up. The Dartmouth players were to go to the stadium today for a last-minute check-up and a warm-up.

Treat Tells Tomorrow in Sport Special

TOMORROW comes the Boston Evening American's Saturday Sport Special. In it Herb Treat will answer the question, "What about the Harvard-Dartmouth game? Who's going to win? What will the score be like?"

The whole town was buzzing last Saturday when Treat declared the Big Three would be beaten. Yale and Harvard W.E.B., and Princeton was held to a tie. Tomorrow Treat will call the turn again.

He doesn't make a blind stab. He sits down with all the dope at his command and figures it out.

Jack Conroy will have an illustrated feature story. There will be a piece of sport photographs and three pages of news. "U" will have another "Tales of Dear Old Boston."

GARCELON HEAD OF N. E. GOLF BODY CAVANAUGH TO START TRIO OF FRESHMEN

By BILL CRIDDES.
William F. Garcelon was elected president of the New England Golf Association at the annual meeting of the organization held at the Hotel Bellevue last night. Garcelon was elected to a second year term. He was elected to a second year term.

Coach Cavanaugh has just about reached the point where he is sure of the eleven men who will start the next games and the eleven men will be the same for each succeeding year, barring accidents, of course. That means that Boston College is a long way on the track toward intensive preparation for the objective games of the year with West Virginia and Holy Cross.

There will be only one change in the lineup for the Allegheny game as compared with the array that started the season at Boston University last week. That change will be a quarterback, where Joe McKenney will be found at home again.

Although it is known that the Eastern Golf Association does not have any sectional golf trophies, no statistics have been compiled in the prize of the New England Golf Association.

The New England Golf Association will not together with the Massachusetts Golf Association to establish a set rating system for the New England and the Massachusetts Golf Association will not together with the Massachusetts Golf Association to establish a set rating system for the New England and the Massachusetts Golf Association.

Garcelon is a former member of the New England Golf Association and has been a member of the New England Golf Association for many years. He was elected to a second year term.

BOSTON RADIO AMERICAN

PROVIDING THE GREAT AMERICAN DEMOCRACY OF THE AIR

All day the news flashes into the editorial office of the Boston Evening American. It is broadcast at 11:30 A. M. and 1:30 and 4:30 and 7:30 P. M. over WNAC.

COOLIDGE WILL SPEAK OVER WRC

One of the most important in our Calvin Coolidge, President of the United States, will be given to the radio audience through WRC, 1230 P. M. tomorrow morning. The President's address will be the International Convention of the Young Men's Christian Association which will be held in Washington, D. C. during the coming week.

LISTEN IN.
The President will speak very frequently as a speaker, and it is indeed a treat to hear his voice again. The political situation at Washington is particularly tense at the present time. It is doubly in the coming address Mr. Coolidge will drop a few words that may clarify the atmosphere in a certain respect.

WORLD CONVENTION.
The world conference of the President will be the delegates to the International Convention of the Young Men's Christian Association and it should be a most interesting event. Mr. Coolidge will be a speaker, and it will probably be one of the most important of all the addresses in the world. It will be a treat to hear his voice again, and it is indeed a treat to hear his voice again.

WORLD CONVENTION.

Martha Lee's Radio Chat

BROADCAST THROUGH STATION: WNAC, SHEPARD STORES. By Martha Lee.

The Foundation Stones of Table Etiquette.

No matter how carefully trained we may have been, it is somehow very easy to slip into little careless table habits, which in turn set a bad example for the children of the household. No today I am going to touch on a few of the simple fundamentals of table etiquette, which I am sure that many of us are familiar with, nevertheless, I have had several letters of inquiry.

First comes the question of the position of the hands.
 Question: "What I take it from the spoon or drink it from the cup?"
 Answer: "After using the spoon or a few times, it is entirely correct to drink the beverage from the cup."

Question: "How shall I eat asparagus?"
 Answer: "Asparagus should be eaten with a fork."

Question: "What is the proper way to eat a quiche and eat it from the fingers or with a fork?"
 Answer: "The quiche should be broken into small pieces, each piece should be eaten with a fork. The larger fork cakes are eaten with a fork, in the case of small cakes, fingers are broken off and eaten from the fingers."

ABOUT CANAPES.
 Question: "How shall I eat a canapé?"
 Answer: "First, parse the canapé, cut the canapé and eat it from the fingers or with a fork."

Question: "What is the proper way to eat a canapé?"
 Answer: "The canapé should be broken into small pieces, each piece should be eaten with a fork. The larger fork cakes are eaten with a fork, in the case of small cakes, fingers are broken off and eaten from the fingers."

Question: "What is the proper way to eat a canapé?"
 Answer: "The canapé should be broken into small pieces, each piece should be eaten with a fork. The larger fork cakes are eaten with a fork, in the case of small cakes, fingers are broken off and eaten from the fingers."

Question: "What is the proper way to eat a canapé?"
 Answer: "The canapé should be broken into small pieces, each piece should be eaten with a fork. The larger fork cakes are eaten with a fork, in the case of small cakes, fingers are broken off and eaten from the fingers."

Question: "What is the proper way to eat a canapé?"

PROGRAM THIS EVENING AT WNAC

If the Pines are kind this night radio fans will hear bustle and bustle between Jim Maloney and King Solomon, which comes through station WNAC, The Shepard Stores.

At 1:30 P. M. This time, weather, which has already caused a number of postponements of this bout, will have little to say, for the grand hall of Mechanics Building is to be the scene of the battle.

Charles Donelan, who has won a few sports week after week by his exciting sport, events from WNAC, will be behind the "mike," and there will be little that Charlie or "mike" will miss after the fight begins.

Donelan has been ready and waiting for the Solomon-Maloney battle for many long months, and he has collected an impressive list of fans to bring in the radio audience to the excitement of the contest.

This broadcast on Friday is made from the courtesy of the Suffolk A. A. the organization which is staging the bout.

Thousands Employed
 Few people realize the vast army of men and women who are employed in the radio industry. It has been estimated that 100,000 people are engaged in the radio industry.

Listen In
 When Allen's plan of "The Green" will be reviewed at WNAC on October 21st.

FINANCE
By H. C. FORBES

A friend who imports lumber the other day brought the latest copy of the paper he received at New York, but most of it was destined for Florida. As the Florida port could not handle a ship drawing more than 17 feet of water, he wanted part of the lumber unloaded in New York. The ship was very urgently needed in Florida. Therefore, his plan was to load the lumber in New York and then ship it to Florida in a hurry. Of course it was hardly to say a ship is loaded up, "what, what you think he did?"

This man knows his business. He knows all about longshoremen; he knows their ways, he knows their habits, he knows their outlook on life. He is ahead of the arrival of the ship he figured out that it would pay all around to depart from the usual custom of having the lumber unloaded by longshoremen working at so much per hour. He knew that he could locate a number of longshoremen, big, sturdy fellows much more eager to earn money than to loaf, more willing to be paid by piecework.

It seems that the custom is for longshoremen working by the hour to carry one bundle of lumber down each arm and to move about at leisure.

But how did these ambitious pieceworkers go about earning their money? They grabbed two bundles under each arm every time and increased the walking distance by actually an amount of the time.

With what result? Their earnings per man averaged \$15 per day. Everybody was happy. The importers saved a lot of money by getting the ship on its way with the least possible loss of time. The workers were happy to earn so much. And those clamoring for the beach in Florida were delighted to receive the shipment ahead of scheduled time.

It amounts to that each of us in his own real boss, each of us sooner or later finds his own earnings.

No man becomes a boss until he has learned through years of work to know himself. Nobody can boss you as well as you can boss your self. If you don't learn to boss yourself, no other boss ever makes you a success. We learn in time that in this world nobody else can do half as much for us as we can do for ourselves.
